Cypheros TS-Doctor 3.2.30 - After the Cypheros TS-Doctor, TS-Doctor will check all your CCTV and DVB streams. If you connect to a satellite receiver, it will locate the DVB stream and check if there are any errors. Download Cypheros TS-Doctor 3.0.26 - The official program designed for reliable DVB-T and DVB-S2. News 11-08-2018 - The target is no longer to reach a total release of 25.000 MHz². Instead, the target is to complete at least one measurement series of a selected site in the whole earth at different times of the year. The new target is to reduce the uncertainty of the inverse crystal structure model to 15cm. 08-02-2018 - A workshop on DataCentres and DataSystems will be held at KIT in Karlsruhe, Germany during the SSC 2018 Summer School. The workshop will focus on topics related to DataCentres, in particular how to design and construct a DataCentre, cooling methods to reduce heat load in DataCentres, and performance and security of DataCentres. 03-11-2017 - The project will use a maximum 30g of Li-Ion battery cells for the 2018 total solar eclipse. They will be used to provide charging power and record solar data during the main time-of-year when the sun is almost directly overhead. Q: How to pass value of drop down list selected item to a javascript function and store that value inside an input text box? I have a function dropdown(v) that gets executed when the change event of the dropdown list is triggered. Now what I want to do is when the dropdown list is changed, the corresponding value stored inside an input field, based on the selected value of the dropdown list. Here is my code: function dropdown(v) {
